Terry Garber
4279 Garber Dr., NW
Strasburg, Ohio 44680

Dear Terry Garber,

On Wednesday, October 31, 2018, I did an evaluation of the remaining trees on your property (Lois Garber). I measured the oaks and the hickory's, and estimated the yellow poplar and red maple trees. Base on my time in the woods, enclosed are the results. The value in today's dollars is estimated to be \$37,544. Estimated board footage is: 106,340. A breakdown is shown below. Please note that timber prices have been volatile since the trade tariffs have been imposed on China. China is a major trading partner for our hardwoods. If you have any questions, or need clarification on any terms or calculations, please do not hesitate to contact our office. A bill has been enclosed for my time.

Yellow Poplar volume:	75,600 board feet	Value: \$24,192
Red Maple volume:	7,020 board feet	Value: \$ 2,457
<u>Oaks & Hickory volume:</u>	<u>23,720 board feet</u>	<u>Value: \$10,895</u>
Totals;	106,340 board feet	Value: \$37,544

Sincerely yours in conservation,
